

OHS Baseball Backstop & Drainage Project Donation

The family of Wally Covell have approached RSU 26 with an offer to donate funds in honor of their father, Wally Covell, to replace the backstop at the OHS baseball field. This project would also include some work on the drainage in the area as well. Wally Covell was a teacher and coach at Orono High School and when he passed away, the family established the Wally Covell Legacy Fund in his memory. The family would like to use these funds to complete this project and place a granite plaque in the backstop commemorating the structure's donation being in his honor.

The backstop would have a brick bottom section with a black netting top. The side sections from the backstop to the dugouts would also have a brick bottom, but would keep chain link fencing on. On the center of the backstop, the family requests a 2x3 granite etched marker be put in with the following wording:

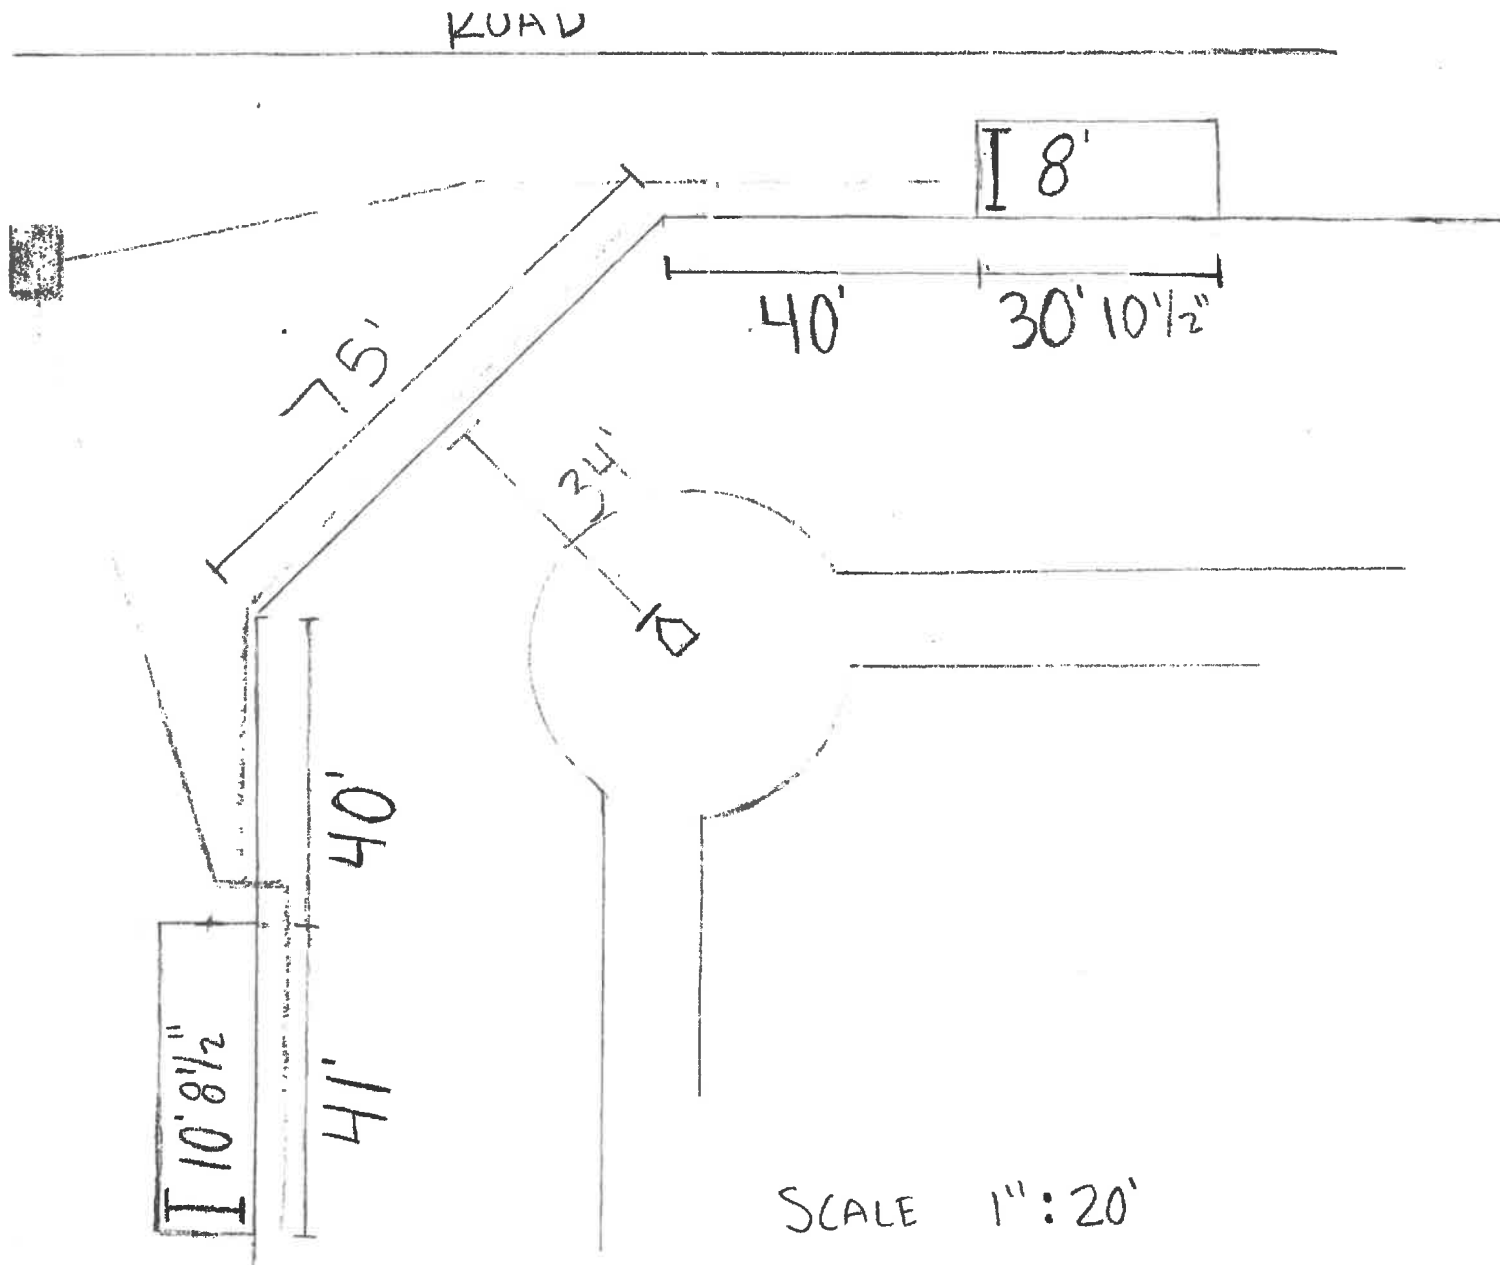

Wally Covell
Teacher, Coach and Mentor
1961-1969, 2000-2004, 2010
Dedication date

Sketch:

The project replaces a very worn out chain link fence backstop and pulls the backstop in by 34' which is a better distance from home plate (see overview sketch that follows) reducing this distance from 68' to 34'.

The donation is estimated as \$14,360 - on following document from Black Bear Lawn Care with in kind donation from Black Bear noted as well (\$2,824).
